### LESSON NEWS

Just a reminder that lesson cheques need to be in a week before the end of the month to hold your spot (they can be post dated for the first). We are adding new students and need to know what spots are available. Also if you pay after the 1st there will be a 10 dollar charge.

Lessons do not run after -20, actual temperature (not including wind chill), lessons can made up on a nicer day within that month they do not carry over. Lessons run every night for all level, email Joyce for times to make up lessons.

Make sure tack is put away nicely and stirrups are NOT up on the saddles horns, this damages the leather, also make sure the straps and cinches are not on the floor, Clean up all messes right away including viewing room, and that the entire floor is swept after every lesson.

Gates need to be closed properly, the front pasture goes through the hole then in the slot. Last one out closes the front gate, this includes Saturday and Sunday if you are the last one or only one here.
